

## POSTDOC POSITION TO JOIN MAVIR CONSORTIUM

MAVIR (Improving the accessibility and visibility of multilingual information in Internet for the Region of Madrid, [www.mavir.net](http://www.mavir.net)) is a research consortium sponsored by the Autonomous Community of Madrid. It is made up of an interdisciplinary team constituted by scientific, technicians, linguists and information scientists of several universities and one institute for documentary studies, who have joined together to carry out an integrated effort in the areas of research, education and technology transfer in order to improve the accessibility and visibility of multilingual and multimedia information on the Web.

The Advanced Databases Group (<http://basesdatos.uc3m.es>) is part of the Computer Science Department at Universidad Carlos III de Madrid and member of the MAVIR consortium. We are looking for an experienced candidate to fill one post-doctoral position for a 18 months period with the following profile:

- PhD degree in Computer Science, Computational Linguistics, Information Science, Knowledge Management or similar fields.
- Experience and/or good knowledge of areas such as Information Extraction, Question Answering, Corpus Annotation, Document Clustering and Machine Learning
- Ability to work independently and as part of a team in a project.
- Proficiency in English.
- Previous experience in European or International Projects.

The position will provide opportunities to meet and collaborate with other researchers not only in scientific tasks, but also at the Master's degree in Human Language Technologies that is being evaluated. The aim is to adapt the master to the Bologna Declaration and participate in the "Erasmus Mundus" program.

Applications will be considered until the position is filled. The position is located in Leganés (Madrid).

There is no restriction on nationality, however, candidates outside the European 25 Member States, Associated Candidate States (Bulgaria, Romania, Turkey) or Associated States (Iceland, Israel, Liechtenstein, Norway, Switzerland), should check for the general conditions to obtain a residence permission in Spain.

An annual gross income of approximately 30,000 € will support the position.

### ELIGIBILITY CONDITIONS

Applicants should email a full CV detailing research experience, interest and publications to:

Paloma Martínez, [pmf@inf.uc3m.es](mailto:pmf@inf.uc3m.es) with the subject MAVIR position
